

Eat Cheese or Fly 2006

August 12th-13th

9am – 7pm

Fun Events:

“E” Weedwacker reunion-

Actually, “E” powered helicopter duration event. Can anybody get one to fly successfully?

Christmas in August-

WOOSH members who have participated in the Rocket gift exchange at past parties are requested to fly their rockets on the same rack.

“H” Beer lofting-

Root beer of course. Fly any certified “H” motor equipped rocket with a 12oz. can of root beer as a payload. The flight is timed from the rockets first motion until the owner recovers it, returns it with the payload unopened to the Contest chairman and then unpacks the root beer and consumes the contents. Real beer may be substituted if the participant agrees that this is their final flight of the day.

ECOF-2006 will be held at Richard Bong State recreation area. A state park sticker or daily pass is required on all vehicles.

WOOSH club and NAR range safety rules will be enforced at the event. A 10000’ MSL FAA waiver will be in effect.

Raffles for rockets and other good stuff will be held in addition to all the regular fun!
